

**Byfleet Primary School  
Pupil Premium Grant Expenditure  
Academic Year 2016/17**

**Background**

The pupil premium is a government initiative which was introduced in 2011. It provides additional funding for pupils from disadvantaged backgrounds. Research shows that pupils from disadvantaged backgrounds underachieve compared to their non-disadvantaged peers. The premium is provided to enable these pupils to be supported to reach their potential. The Government has used pupils entitled to free school meals (FSM), looked after children and service children as indicators of deprivation, and have provided a fixed amount of money for schools per pupil based on the number of pupils registered for FSM over a rolling six year period.

**Objectives of Pupil Premium Spending**

This money is allocated to initiatives which help to ensure pupils reach their full potential both academically and socially. The funding for 2016-2017 is based on 50 pupils – 20% of the school population.

- **Learning Support Interventions**

Accelerate the progress of learners who are falling behind by providing focussed interventions to address identified gaps in learning.

- **1:1/group tuition**

Accelerate the progress of learners who are falling behind by providing focussed 1:1 support to address identified gaps in learning. Also to provide extra challenge for 'Most Able' pupils to facilitate pupils to make above expected progress.

- **Enrichment Activities Including Educational Visits**

Raise attainment by providing engaging and exciting curriculum enrichment activities as contexts for subsequent classroom learning. High quality stimuli and real reasons for the outcomes of lessons lead to a higher pace of learning and achievement. This type of provision also provides exposure to a broad range of rich experiences which may not have otherwise been available to children from disadvantaged families for cultural or financial reasons.

- **Staff Development**

Accelerate the progress of vulnerable groups by improving the quality of teaching and equipping pupils with the metacognitive skills required to become effective, self-sufficient learners.

- **Family Support and Engagement**

Raise attainment by reducing the effect of family-based barriers to learning such as: parenting and behaviour management; health issues; attendance and punctuality; housing.

**Amount of Pupil Premium Grant (PPG) Received  
Academic Year 2016/17**

**Amount of PPG received 01/09/2016 – 31/03/2017**

|                                   |                |
|-----------------------------------|----------------|
| Total number of pupils on roll    | 247            |
| Number of pupils eligible for PPG | 45             |
| Total amount of PPG received      | <b>£34,992</b> |

**Amount of PPG 01/04/2017 – 31/08/2017**

|                                   |                |
|-----------------------------------|----------------|
| Total number of pupils on roll    | 247            |
| Number of pupils eligible for PPG | 50             |
| Amount of PPG                     | <b>£27,351</b> |

**Amount of PPG for Academic Year 2016-17**

|                                              |                |
|----------------------------------------------|----------------|
| PPG from 01/09/2016 – 31/03/2017             | £34,992        |
| PPG from 01/04/2017 – 31/08/2017             | £27,351        |
| Total PPG received for Academic Year 2016-17 | <b>£62,343</b> |

**Nature of support 2016/17**

|                                           |     |
|-------------------------------------------|-----|
| Focus on learning in the curriculum       | 92% |
| Focus on enrichment beyond the curriculum | 2%  |
| Focus on social and emotional support     | 2%  |
| Focus on families/community               | 4%  |

**Curriculum Focus:**

Increase % of children working at age related expectations in reading, writing and maths. Narrow the gap between PP children and non-PP children.

## Record of Pupil Premium Grant spending by item/project 2016/17

| Item/Project                               | Cost    | Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Objective                                                                                                                                            | Outcome                                                                                                                                                                                                                                                                                                                                                                                |

## Record of Pupil Premium Grant spending by item/project 2016/17

| Item/Project          | Cost   | Summary                                                                                                                                                                                                                                                                                                                                                                                      | Objective                                                                                                                                                                                              | Outcome                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Staff Development     | £1,511 | <p>Staff Development is provided through INSET, staff meetings and external CPD training to enable further support for learning and behaviour management of pupils with certain needs.</p> <p>Intervention training courses this year include:</p> <ul style="list-style-type: none"> <li>- FFT Wave 3</li> <li>- Inference Training</li> <li>- Success@ Arithmetic: Number sense</li> </ul> | <p>To accelerate the progress of vulnerable groups by improving the quality of teaching and equipping pupils with the metacognitive skills required to become effective, self-sufficient learners.</p> | <p><i>Expected outcome: Improvements in quality first teaching and of interventions run by staff evidenced in training evaluations and reflections.</i></p> <p><i>Observations and monitoring of interventions by SLT tacks the effectiveness of training.</i></p> <p>This has included training to run interventions for teachers and teaching assistants, such as: FFT Wave 3, ELSA training and Success @ Arithmetic training.</p> <p>Analysis of Summer term interventions shows that, when looking at the whole school, 64% of these were successful.</p> |
| Enrichment activities | £2,144 | <p>These include funding for after school clubs, swimming lessons and Educational visits. This type of provision also provides exposure to a broad range of rich experiences which may not have otherwise been available to children from disadvantaged families for cultural or financial reasons.</p>                                                                                      | <p>To raise attainment by providing engaging and exciting curriculum enrichment activities as contexts for subsequent classroom learning.</p>                                                          | <p><i>Expected outcome: Improvement in children's life experiences and aspirations.</i></p> <p>This funding gives PPG children experiences which they would not have otherwise have had due to parental funding and ensures that all children gain the same experiences to support their learning.</p> <p>This year we have funded children's after school club sessions, swimming sessions and school trips including a residential.</p>                                                                                                                      |

|------------------------------|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Social and Emotional support | £10,294        | <p>Additional support for SEN support children who also receive PP. The school have a trained Emotional Literacy Support Assistant (ELSA). In years 1-6 for children who experience difficulty expressing their emotional needs and require support for their social development.</p> <p><i>'It was found to be an evidence informed project and it had a positive impact on TAs' self-efficacy for working with children and subsequently children's emotional wellbeing.'</i></p> <p>(Elsa Network)</p> | To support and develop children's emotional needs so that they can regulate their own emotions whilst also respecting the feelings of those around them.                                    | <p><i>Expected outcome: An improvement in children's emotional wellbeing based on their personal targets.</i></p> <p>67% of pupils with ELSA made progress against their personal targets.</p> <p>*Due to the nature of this programme – many cases are ongoing and require additional agencies.</p>                                                                                                                                                                                                                                                                                                     |
| Home School Link Worker      | £2,430         | <p>The school have employed a Home School Link Worker (HSLW) to provide support for young people and their families.</p> <p>The HSLW also provides social and emotional support for the children in these families.</p>                                                                                                                                                                                                                                                                                   | <p>Raise attainment by reducing the effect of family-based barriers to learning such as:</p> <p>parenting and behaviour management; health issues; attendance and punctuality; housing.</p> | <p><i>Expected outcome: Engaged parents working with the school to improve outcomes for children in their learning and emotional well-being.</i></p> <p>The HSLW has worked with families to provide help, support and advice at challenging times and has resulted in an improvement in parental involvement with the school. They have referred pupils and families to agencies such as Surrey Family Mediation Services, The Family Support Programme, and The Parenting Puzzle which have proven to boost pupil's self-esteem and class involvement and as a result, their academic achievement.</p> |
|                              | <b>£62,076</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|                                         |                |
|-----------------------------------------|----------------|
| <b>PPG Brought forward from 2015/16</b> | <b>£332</b>    |
| <b>PPG for 2016/17</b>                  | <b>£62,343</b> |
| <b>Total PPG Expenditure 2016/17</b>    | <b>£62,076</b> |
| <b>PPG Remaining</b>                    | <b>£267</b>    |

## Impact of Pupil Premium Spending 2016/17

The school's evaluation of its own performance is rigorous. Tracking of progress over time for each pupil is thorough, so we can quickly identify any dips and develop sensible strategies and interventions to promote improvement.

The impact of interventions is analysed half termly as assessment data is gathered and input/follow-up is put in place if an intervention is not having the desired impact.

In 2016/17, we will use a range of data to analyse impact of spending:

- End of key stage data
- Phonics outcomes
- EYFS data
- Current data
- Intervention analysis
- Outcomes of observations, work scrutinies, learning walks
- Stakeholder feedback

The charts below will be updated on KS2 outcomes.

### Performance Analysis of PPG pupils at end of KS2 2017

|                                           | PPG school | PPG national |
|-------------------------------------------|------------|--------------|
| % achieving expected standard in reading  | 78%        | 77%          |
| % achieving expected standard in writing  | 67%        | 81%          |
| % achieving expected standard in maths    | 89%        | 80%          |
| % achieving expected standard in R, W & M | 56%        | 67%          |
| PPG children progress measure in reading  | +0.9       | -0.72*       |
| PPG children progress measure in writing  | -2.1       | -0.26*       |
| PPG children progress measure in maths    | +1.2       | -0.52*       |

\*based on 2016 national figures

### Narrowing the Gap between PP and other children

|                 | Reading | Writing | SPAG  | Maths |
|-----------------|---------|---------|-------|-------|
| <b>2016/17</b>  | +0.8    | +10%    | +0.8  | -0.3  |
| <b>2015/16*</b> | -2      | -9%**   | -1    | -3.3  |
| <b>2014/15</b>  | -2.6    | -2.4    | -2.5  | -2.6  |
| <b>2013/14</b>  | -1.5    | 0.5     | -0.7  | -0.9  |
| <b>2012/13</b>  | -6.7    | -11     | -10.6 | -7.4  |

\*2016 onwards data shows the gap between PPG children and other children based on their scaled score.

\*\*2016 onwards data is based on % of pupils who achieved the expected standard.

### Historical Performance Analysis of PPG pupils at end of KS2

|                                                        | 2012/13 | 2013/14 | 2014/15 |
|--------------------------------------------------------|---------|---------|---------|
| % of PPG children achieving level 4+ in reading        | 50%     | 100%    | 89%     |
| % of PPG children achieving level 4+ in writing        | 0%      | 91%     | 67%     |
| % of PPG children achieving level 4+ in maths          | 50%     | 82%     | 78%     |
| % of PPG children making 2 levels+ progress in reading | 50%     | 82%     | 89%     |
| % of PPG children making 2 levels+ progress in writing | 50%     | 91%     | 67%     |
| % of PPG children making 2 levels+ progress in maths   | 83%     | 82%     | 100%    |
